Occupation and industry specific guides

Income and allowances to declare and the expenses you can claim a deduction for in your occupation or industry.

Last updated 11 May 2026

Our guides

Our occupation and industry guides help you to complete your tax return. Use these guides to:

- work out what income and allowances to declare
- check if you can or can't claim work-related expenses as a deduction
- find out what records you need to keep.

To claim a deduction for work-related expenses, you must meet the 3 golden rules:

1. You must have spent the money and you weren't reimbursed.
2. The expense must directly relate to earning your income.
3. You must [keep records](#) that show you incur the expense (usually a receipt).

Occupation and industry guides

Tailored occupation and industry specific guides help you get your tax return right.

Use the table below to access either:

- the **complete** occupation and industry guide, including income and allowances, deductions for work expenses and record keeping
- the **PDF summary** of common work-related expenses for your occupation or industry.

Table: Occupation and industry guides and common work-related PDF summaries
